Kinston Queen And Attendants

The Elba Tigers take on another down-and-out team, the Geneva Panthers, in Elba stadium tomorrow night in a contest hoped to be the closest of the year for the two teams. Geneva has the better record of the two, having won one and tied one, while Elba has one win and lost six. This could be the last good chance for a win for the Tigers this year, as their following opponents are Andalusia and Troy, both conference powerhouses.

DORSEY NAMES INSTALLMENT FINANCE FIRM

NEW YORK—James Talbott, Inc., one of the country's oldest and largest installment finance companies, today announced an agreement covering the financing of installment sales of Dorsey Trailers, Inc., the third largest manufacturer of highway trailers, nationally and foreign countries.

Under this program, Talbott will handle retail as well as wholesale financing for Dorsey Trailers, Inc., and its distributors. This will include checking of credit, collecting of retail paper and other administrative details. The services will enable Dorsey's distributors to greatly increase their sales and inventory position. Dorsey Trailers, Inc., a corporation, and the company acquired recently by the Dorsey Corporation, and the company plant and general offices in Elba, Alabama.

Founded in 1884, Talbott is engaged in all phases of industrial finance—accounts receivable and inventory financing, mortgage, equipment and special loans, factoring, industrial time sales financing and rediscouting. In the first half of 1959, the volume of receivables acquired by the company amounted to more than \$455,000,000.

New Vocabulary For Hog Growers
AUBURN—A whole new vocabulary is open to today's hog producer.

To keep up with fellow breeders, the modern swine producer must understand such terms as production, registry, or simply PR; certified meat-type breeding; certified sires; and super certified sires. A good way to stay up to date on new terms is to subscribe to your purebred breed magazine or journal, says APT Extension Hog Marketing Specialist Ray Cavender.

Former Local Man Gets Life Term
Hutch Danley, 43, formerly of Danley's Cross Road, has been sentenced to life imprisonment at Columbus, Ga., for the slaying in a rooming house of Fred Baxley, formerly of Dothan, an unemployed man in his late 50s.

He was convicted by a jury Tuesday last week, after an hour's deliberation, with recommendations of mercy which automatically made the sentence life in prison.

Evidence showed Baxley was beaten, stomped and dashed with a soft drink bottle in an argument over Ann McCart, 34, the night of August 9.

TIGERS FACE LAST CHANCE FOR VICTORY

The Elba Tigers take on another down-and-out team, the Geneva Panthers, in Elba stadium tomorrow night in a contest hoped to be the closest of the year for the two teams.

Geneva has the better record of the two, having won one and tied one, while Elba has one win and lost six. This could be the last good chance for a win for the Tigers this year, as their following opponents are Andalusia and Troy, both conference powerhouses.

MARY SPINKS IS IN DAIRY BEAUTY FETE

Mary Spinks of Elba is Coffee County's representative in the Dairy Beauty Fete contest in Montgomery. The contest will be held Saturday in connection with the Alabama Farm Bureau Federation and the Alabama Council of Home Demonstration Clubs. Some 30 counties will have contestants.

Mary will go to Montgomery Sunday afternoon and return Wednesday morning. She will be accompanied by her father, Mr. Spinks, in this important contest.

Festival
Have you ever seen a calf scramble or a gray pig scramble? I had the pleasure of seeing both at the recent Peanut Festival in Dothan.

Mr. Pleasant boys, Mickey Smith, and Harry Young went with me. Mickey caught and held one of the purpled hereford heifers. Starting Jenright, Zion Chapel 4-H club, exhibited the heifer in won over there last year. Saw L. A. Boyd III and son showing two of their fine bulls. Also saw Charles and Gibson with his Angus cattle. Everytime I see the Peanut Festival, I'm reminded impressively of the importance of agriculture in the Wiregrass.

Demonstrations
"Introductions" and "Safety with Firearms" are our two 4-H club demonstrations in November for Coffee county boys. The girls used the program on Introductions last year with a lot of success and I'm sure the boys will also enjoy it. The program on Firearms Safety can save a life. I remember hunting with 17-year old boys carrying 12-gauge shotguns. Neither had been trained in Firearms Safety and I couldn't enjoy the pleasure of hunting for thinking about the dangers of being out with the two boys.

Both boys were fine in the way, but untrained in the use of guns. The demonstration we have planned will certainly help about 600 Coffee county boys learn the main points in handling firearms safely.

Dr. and Mrs. Wm. E. Yoham had as recent guests, his mother, Mrs. J. L. Yoham of Miami and his sister, Mrs. Jack Cummings and daughter, Anne Elizabeth of Homestead, Fla. Mrs. Yoham returned Sunday with Mrs. Cummings remained for several days.

Two Firsts—

Final touches are being put to plans to make the Third Annual Elba Fall Festival Saturday, next week, the biggest and best yet.

The parade this year will include the "First" from the Little Debbie Lindsey, daughter of Mr. and Mrs. Charles Lindsey, as Little Miss Peanut and Miss Rietta Ann Crook, 17-year old daughter of Mr. and Mrs. Kermil Crook, as Miss Congeniality.

To win first place among fellow contestants as the most congenial was widely regarded as top honor and Miss Crook was acclaimed for her charm and poise among the 2,500 people in Dothan for the event.

Little Debbie Lindsey as Little Miss Peanut captivated the hearts of hundreds as she kept printing her autograph and through it all maintained her unassuming charm.

Robert C. Hann, general chairman of this year's Fall Festival was stricken with appendicitis last week and was rushed to Veterans Hospital, in Montgomery, for an emergency operation.

Ellis Brazelton, Elba real estate man, agreed to take over in Mr. Hann's place and all this week committees have been meeting to make last-minute plans.

The day's program will begin at 9:45 at the Reviewing Stand on the Public Square, with the parade at 10 a.m. and continuing throughout the day with a different attraction every hour including music, midget auto races, wrestling, and other events.

Sunday Visit Ends In Shotgun Death
Casey W. Dannelly, 46, of Samsom, was slain Sunday, Oct. 23, in an altercation described by investigating officers as the climax of a Sunday afternoon social call at the home of a brother, Chastow Dannelly.

The slaying occurred at Chastow Dannelly's farm home about 10 miles south of Samsom after the brotherly cause of death was heart attack.

FERNIE EFFORD MEEK

Mr. Meek was active in social and educational activities. He is survived by the widow, Mrs. Mary C. Meek; one son, Wilson Meek of Elba; two daughters, Mrs. Charlie Jones of Opp and Mrs. Woodrow Piers of Kinston; one brother, C. J. Meek of Elba; two sisters, Mrs. Mattie Reeves of Opp, and Mrs. George Harrison of Tallahassee, Fla.; and six grandchildren.

Noise And Misuse Affect Dairy Cows

AUBURN—The same gland that is affected by human emotions can affect the milk letdown in dairy cows.

When a cow becomes scared or excited, the level of adrenaline in the blood stream increases, explains APT Extension Dairyman John Parrish. The adrenaline in turn, counteracts some substance that causes milk letdown. Therefore, a cow that is mistreated or distracted by noise cannot be expected to properly let down milk.

Parrish points out that anything that interferes with normal milk letdown will reduce the amount of milk given.

U. S. Department of Agriculture chemists report that tobacco smoke may contain as many as 300 to 400 different compounds.

National corn production for 1959 is expected to reach four and a half billion bushels.

ALABAMA'S TOP HOMEMAKER VIES FOR MRS. AMERICA TITLE

FLA. LAUDERDALE, Florida — To win the title of Mrs. America — the nation's No. 1 homemaker — Mrs. Richard Douglas of Birmingham must prove to the judges that she can bake a tasty bread and make a pretty dessert.

Mrs. Douglas, winner of the state finals at Birmingham, is shown here as she takes a yeast-risen sweetroll from a modern gas oven to set before the yeast-baking judges. Her next step: a fancy dish for the Royal Desserts Event. Mr. Douglas, who accompanied his wife to the contest at Ft. Lauderdale, naturally gives his vote to these recipes:

MARMALADE ROLLS

1/2 cup warm, not hot, water 2 1/2 cups prepared biscuit mix
1 package active dry yeast 1/2 cup butter
1 egg 1/2 cup orange marmalade
1 tablespoon sugar

Measure warm, not hot, water into a mixing bowl. Sprinkle in yeast. Stir until dissolved. Mix in egg, sugar, and biscuit mix. Beat vigorously. Turn dough out on surface well-covered with biscuit mix. Knead until smooth, about 20 times. Let rest 5 to 10 minutes. Place 1/2 teaspoon soft butter and 1/2 teaspoon marmalade in each of 12 greased muffin cups. Roll dough out into a rectangle 16x9 inches. Spread with remaining butter and marmalade. Roll up tightly, beginning at wide side. Seal well by pinching edge of dough into roll. Cut into 12 slices. Place in prepared muffin cups. Cover with damp cloth. Let rise in 85° warm place about 45 minutes. Bake in moderate oven (350° F.), 12 to 15 minutes.

Fold in whipped cream and chopped nuts. Fill into 1 1/2 quart mold. Chill until firm, about 3 hours. Unmold. Serve plain or with whipped cream. Serves 10 to 12 servings.

Warns Of Misuse Of 'Wonder Drugs'

Misuse and overuse of the new "wonder drugs"—the antibiotics—has become a serious medical problem, according to the editors of Changing Times, the Kiplinger Magazine.

Normally harmless types of bacteria have become virulent; others, like staphylococcus, have become impervious to antibiotics.

Individuals, the magazine reports, can contribute to the drive to stop misuse and overuse of the drugs by refraining from demanding them for minor illnesses, giving doctors the time and opportunity to diagnose ailments properly.

MOST PEOPLE ARE UNAWARE OF SECURITY

Strange as it may seem, the average American thinks he will never grow old and he will never die. So says Harry Scott, manager of the Dothan Social Security District Office, who points out that many never bother to inquire about what Social Security means. This in spite of the fact that this federal system has been paying benefits for over twenty years. Over 12,000,000 Americans now get checks totaling some \$700,000,000 monthly.

Did you know that Social Security payments to your family could, under some circumstances, run up to more than \$50,000 if you should die. It's a fact, they could. Did you know that cash payments are often made to seriously disabled insured people if they are between 50 and 65? It's a fact, they can. (Women workers may retire at age 62 if they wish.) Informational pamphlets about Social Security, touching on all parts of the law, are available at any district Social Security Office. They are free. This area is served by the office located at 404 South Yates Street, in Dothan, Alabama.

There is still considerable mystery as to what causes the losses labeled as "shipping fever" during the mass movement of feeder cattle and lambs from ranges to feed lots each fall.

In cattle alone, this infectious respiratory disease takes an annual production toll of approximately \$25,000,000, and many organizations this month are giving it special attention as part of National Livestock Loss Prevention Year.

Authorities believe that exhaustion, stress, and the simple wear-and-tear of shipment play an important part in bringing on this disease. Livestock coming down with shipping fever appear tired, have less appetite, may show signs of chilling. As the disease progresses, they will develop a fever, have a soft cough, and there may be a discharge from the eyes or muzzle. If these animals can be given medical treatment promptly, it can help prevent development of pneumonia, which is so often fatal. Prompt treatment and good care also help to lessen the chance of such animals becoming permanently unthrifty.

The shipper and farmer can take a number of precautionary steps to lessen the chance of shipping fever developing. Vaccination prior to shipping will be helpful—the type depending on the season, condition of animals, and time prior to shipment. Animals should be handled gently both before and during transit. In shipment, they should be protected against extreme weather. On arrival at destination, they should be given a little water and should be placed in quiet, comfortable, well-ventilated quarters.
